

The Logo of a Paper Factory is shown below. The Logo consists of a Helix (Ribbon). The first turn of the Helix has a lead of 120mm whilst the second turn has a lead of 60mm. The ribbon thickness is 10mm throughout.

- a) Use your drawing instruments to construct the first turn of the Helix.
- b) Use your drawing instruments to construct the second turn of the Helix.
- c) Give the Helix a 10mm thickness throughout. Leave all construction lines visible. You are NOT required to colour the Helix.
